For the Child with a Birthname and Birthdate
Character Analysis of the Birthname and Adoptive Name

General Information on Naming

What would you say if you were told that as parents you have the power to pick the characteristics/traits of your child's "design" by virtue of a "name" selection process—imagine that! The name you assign to your child's birth certificate along with the birthdate will determine your child's foundational blueprint and the experiences he/she will attract to them throughout their entire lifetime. After all, a name selection is a big decision when you think about it. Choosing the right name for your child is one of the first and most important things you will ever do for your child. Remember, you and your child will have to live with the name for the rest of his/her life whether they like the name you have selected or not and it's how the world will identify your child. The more insight you have into the powerful influence of their name before assigning that name, the greater the opportunity to enjoy the success your child is capable of achieving based on the vibrational patterns inherent in the name you have chosen.

What Adoptive Parents Should Know:

- A spiritual master plan is woven into every name
- The name picked will affect their child's life
- Parents can now test names prior to assigning the name
- Parents can select traits/characteristics of their child
- Parents can analyze potential impact of the name change
- The Name reveals the personal characteristics
- The Birthdate reveals the development areas, strengths and weaknesses
- Parents will have insight into their child's behavioral patterns

The Analysis Includes:

- General information on the importance of naming
- Character analysis of the birthname/birthdate and adoptive name for comparison
- Explanation of the characteristics/traits and development areas

Your child's blueprint influences the path he/she will travel on in this lifetime as it offers insights into their missions in life, characteristics/traits, purpose, destiny and soul development. Numerology provides you with a greater perspective on life from a holistic standpoint that helps you prepare for the future by recognizing your child's strengths and helping them to overcome their weaknesses. The numbers in their chart play an integral role in shaping their life and their destiny.

Why is this so important? Because the naming convention influences the vibrational patterns assigned to the name of the child. It has long been recognized throughout time that names play a vital part in directing and influencing one's destiny. Everything is named and numbered; therefore, Numerology recognizes that a spiritual master plan lay hidden in names and the numbers comprising them. Chaldean Numerology, the ancient science of numbers dating back to well over 6,000 years, applies numbers to names that determine the experience drawn to that human being bearing a particular name—or you might say that Numerology is like a mirror that reflects your life's journey in the form of numbers which can identify and interpret—through a mathematical formula how that master plan will really affect your child.

Here's How it Works

The name and birthdate together form your child's "foundational" blueprint (Basic Numerology Master Chart) which remains with them their entire life or until you legally change the name—at which time, certain personal characteristics/traits are then altered from the foundational blueprint by virtue of the name change after a nine year period of time. That means, it will take nine years for the new legal name to resonate 100% with your child who will continue to attract experiences from their birthname in addition to their new name until the nine-year period has commenced. After that nine-year period, the new name becomes the dominant influence over the original birthname blueprint.

Numbers R U offers naming analysis charts that are a "twist" different from any naming resource on the market today. With well over twenty-six years of expertise as Master Numerologists, they

have developed a sophisticated, state-of-the-art computer program that has the tools to virtually strip a name down to its core, analyze the components, and then “read” the name in such a way (based on mathematical formulas) that allows adoptive parents to know their child’s blueprint. Simply put, Numbers R U have reverse engineered converting a name into a personalized blueprint using Numerology to decipher the code or master plan that lies hidden within a name or name and birthdate when calculated together.

Below is the magical formula that we use to calculate the blueprints. Each row of numbers is assigned a number as shown above the first row of letters. This formula is based on sound and phonics that dates back to 4004BCE and is the only accurate system of numbers. Using this formula, we apply multiple subsets of the formula to determine the characteristics/traits and development areas of the individual.

Knowing this information will allow you to have a much better understanding of your child’s characteristics, how they are designed, so to speak, and enable you to work with your child based on knowing what his/her characteristics are. This character analysis gives you more insight into your child’s behavioral patterns so you can influence your child in a more positive way during the most important stages of their life. You should also be aware that your child will fall into one three categories as a result of their blueprint and how they are designed. They will either be classified as a Lover, Leader or the Lover/Leader. The lovers are generally nonaggressive and look to others to make their decisions for them while leaders are aggressive and want to be in charge and in control all the time. Lover/leaders are more balanced because they are both aggressive and nonaggressive depending on when they want to take charge or not.

Understanding Your Child’s Characteristics/Traits and Development Areas

Your child’s blueprint consists of the following nine “missions” that are broken down by four personal characteristics/traits, four development areas and the Life Goal that is a combination of the birthname and birthdate. From the information extracted from this chart, you will know exactly how to encourage your child to overcome any difficulties they came in to experience by knowing what areas they will need help in to develop themselves in overcoming insecurities. As parents, you will be able to guide them in the right direction with the information gleaned from this chart.

Life Goal

These characteristics/traits and development areas can be explained on the following page.

Soul/Heart’s Desire

The Soul/Heart’s Desire is the emotional aspect of you and is the innermost desire of the heart calling out for you to seek to express yourself in the world. The Soul Desire is derived from the vowels of your name. These vowels are the reflection of the emotions, the way you feel about things, people, places and situations including how you view yourself and your life. Your emotions react to your environment in which you find yourself, based on the models you have established or set up for you, on that inner level. It is the inner you that interprets and expresses your emotional responses to people and the environment around you.

Personality

Your Personality forms the first real impression that you make on others and is the physical aspect of you. It forms the outer self and is the total composite expressions of the etheric, the emotional, the intellectual, and the physical aspects that you will radiate to others. When you walk into a room, you will give off “first” impressions and give off “vibrations” which people will pick up and interpret. People tune in first to the “physical” appearance that comes “before” you make the “first” impression.

Purpose

Your Purpose number reveals what your mission in life is. It will tell you specifically what you must do and be, not what you are or what you may desire to be. It specifies all the experiences that you will need as an individual to get the most out of your own life. Also known as the intuitive aspect, the purpose number reveals itself in the form of hunches that are different and are separate from your own thinking processes. This is the intuitive aspect of you, the higher, silent self, which is a part of you, your inner connection with the forces of the Universe.

Soul Qualities

Your name forms a picture of your strengths and weaknesses as an individual. Soul Qualities are often referred to as Karmic lessons that need to be developed in order to bring about balance and harmony in this lifetime. These qualities require development and are found by discovering which vibrational patterns are missing from the letters in your full name. Any “Soul” Qualities, 1 – 8 with a value opposite it will show you the area or Karmic lesson you must master in order to

achieve your highest potential to become a more integrated and harmonious person. Soul Qualities #1, #3 and #5 will have a “normal” value of “3,” while #2, #4, #6, #7, and #8 Soul Qualities will have a “normal” value of “1.” Knowing your child’s Soul Qualities is critical so that you will understand the areas you must help them to develop or areas that will cause them the most difficulty.

A Zero (0-) or None value on any Soul Quality means the person has a Karmic lesson to learn. A Soul Quality assigned a number value with a plus sign (+ More) means that the person has been developing this quality and exceeds the normal value indicated. A Soul Quality assigned a number value followed by a minus sign (– Less) means the person has not yet reached the particular level of understanding for that Soul Quality and has more work to do in that area in order to achieve balance an full potential.

Knowing your child’s Soul Qualities is critical so you will understand the areas that will cause your child the most difficulty as they grow up. Listed on the following pages and in the analysis are the explanations of the eight Soul Qualities that will indicate those areas your child will need to develop based on what their Soul Quality numbers calculate to be. The eight Soul Qualities cover the child’s entire development spectrum.

Number 1 Soul Quality

Leader/Pioneer

A person with a Number 1 Soul Quality is a self-reliant leader and pioneer who paves the road for others to follow; has creative and original ideas, a good sense of humor, and likes to be in charge. If the Soul Quality number is a “0-” (a Karmic lesson) or number lower than a “3” (the standard norm), then the individual will need to develop leadership skills in order to become a good leader.

Number 2 Soul Quality

Sensitivity/Confrontation

A person with a Number 2 Soul Quality is gentle, cooperative, sensitive, and is non-aggressive. If the Soul Quality number is either a “0-” (a Karmic lesson), or any number higher than “1” (the standard norm), then confrontation will be a major problem for this individual to overcome in this lifetime. Until they are able to conquer their fear of confrontation and speaking up for themselves, they will continue to allow others to make decisions for them that may not be in their best interest.

Number 3 Soul Quality

Creativity/Social

A person with a Number 3 Soul Quality has an inborn desire to express themselves through creative and artistic channels and is considered to be an entertainer, romantic, social, and ambitious with the tendency to “scatter” their energies because they are easily distracted. If the Soul Quality number is either a “0-” (a Karmic lesson), or any number lower than “3” (the standard norm), then this individual will need to develop communications skills and learn to be more creative in their life since they would be underdeveloped in this area.

Number 4 Soul Quality

Structure/Foundation

A person with a Number 4 Soul Quality is known to be the “builder,” someone who is conservative, loyal, hardworking, detail-oriented, disciplined, dedicated and good in management. If the Soul Quality number is a “0-” (a Karmic lesson), “1” being the standard norm, then this individual will need to develop structure and foundation in their life because as a builder, they must be organized and not scattered in order to perform their work. They like everything in order including their home environment and finances.

Number 5 Soul Quality

Freedom/Change

A person with a Number 5 Soul Quality represents someone who requires movement, change, progress and travel in their life to prevent boredom; their freedom is what they live for. If the Soul Quality number is either a “0-” (a Karmic lesson), or any number lower than “3” (the standard norm), then this individual will need to develop more balance in their life to prevent escaping from reality when reality becomes dull and boring.

Number 6 Soul Quality

Domestic/Caregiver

A person with a Number 6 Soul Quality is very domestic, caring, gentle, sensual, nonaggressive, and by nature devoted to partnerships, family, home, and service to the community. These qualities, including artistic talent, make this person magnetic drawing people to them because of their lovely nature. If the Soul Quality number is either a “0-” (a Karmic lesson), “1” being the standard norm, then this individual will need to develop an understanding of what it’s all about

to care for someone who needs their help (lovingly and willingly), putting aside their needs to care for others.

Number 7 Soul Quality

Intellectual/Educator

A person with a Number 7 Soul Quality is a perfectionist, loner, analytical, intellectual, reserved, selective, aloof, and is considered to be an educator because of their desire in obtaining knowledge to share with the world; they are the thinkers and are driven to search for the truth. If the Soul Quality number is either a “0-” (a Karmic lesson), “1” being the standard norm, then this individual will need to develop their technical and intellectual skills, while at the same time, seek a deeper meaning in life to know what real “faith” is all about by developing their spiritual side.

Number 8 Soul Quality

Ambition/Balance

A person with the Number 8 Soul Quality is aggressive, ambitious and likes all the material wealth that comes with being successful, seeking personal fame and acknowledgement of their contributions. They have sound judgment and generally hold high management positions. If the Soul Quality number is either a “0-” (a Karmic lesson), “1” being the standard norm, then this individual came in to learn how to make money; how to manage money; and how to balance the materialistic and spiritual worlds for complete harmony.

Destiny

This is your mental aspect of you and the controlling factor in deciding what you chose to receive from experiences in this lifetime. It is what you are born to do, and the part you are to play on the stage of life, now and in the future. We are all born with a unique architectural blueprint that is derived from the birthname and birthdate. This blueprint also provides the discipline and the direction to fulfill the master plan. The destiny number remains the same all of your life since it’s calculated from your birthdate and that’s a given.

Life Goal

The Life Goal will manifest itself as a subtle influence that comes to the surface in the middle half of life. Its function is to give both hope and opportunity for continued purpose during your latter days and it is called the ultimate goal by some.

Challenges

The Challenges show your strengths and weaknesses that you must deal with to become a more integrated and harmonious person. There are two “Minor” Challenges, one “Main” Challenge that is felt throughout your entire lifetime, and a Third and Last Challenge. If the “Third” and Last Challenge is different from the “Main” Challenge, then it is meant to you more of a foundation during the later part of your life. Challenges throughout life are divided up into age cycles so that you will know exactly during that age span what to expect from what you are to experience based on what each of the numbers calculate to be.

It is highly recommended that parents take the naming process seriously. Those who do will be leap years ahead of those parents who are not aware that this valuable tool exists in assessing the layout and design of your child’s character, strengths and weaknesses. We believe that caring parents with imagination will welcome our product and service to assist them in selecting the right name for their child.

The personal information you are about to receive is an analysis of the birthname or foundational blueprint that will be compared to the blueprint of the adoptive name for the purpose of providing you with information to help you make a decision about naming your child; whether you retain the birth name or legally change it. It will probably be surprising to learn just how much information can be extracted from the blueprints but the understanding of this information will give you as parents insight into your child’s behavior patterns. Each of the “missions” will be spelled out with a short explanation of what the calculation means.

Character Analysis of the Birthname and Adoptive Name

The name change affects only the personal characteristics/traits in the peach-colored boxes listed below which means when you change the name, you alter the characteristics as you can see by comparing the name Jane Marie Doe to Sally Sue Mandell. However, there are certain circumstances when you change the name but the characteristics remain the same as with the example below of the Purpose “5” remaining the same for both names. This is due to how the letters add up and convert into numbers and the differences between the number of letters and numbers in the birthname versus the adoptive name change but for the most part, the characteristics/traits will change. Below is an example of testing two names that are radically different and comparing the results of what each name calculates to be. It’s also entirely possible to get the same results with different names but this is a rare exception to the rule—but the end result either way—is based strictly on doing the math.

As a parent, you can change your child’s characteristics simply by the naming convention. Want an intellectual child versus a child with a joyful personality that’s more fun loving than serious?

The child's blueprint is created by the name you select and ordering an analysis is the best way for you to "test" the name prior to finalizing it. The following page will contrast the differences between the selection of the birthname and the adoptive name to see what characteristics are a better fit for your child. The explanations are written for an adult but nevertheless, you will be able to understand what the true meaning is for that particular characteristic that will apply to the name you choose which your child will experience. Remember, the birthname equals the child's birthright blueprint and what they came into this lifetime to experience. If you decide to change the name, then it will take nine years for the legal name change to resonate 100% with that child and then that blueprint will become the dominant overlay influence on your child.

The birthdate reveals the development areas that remain identical for both the birthname and adoptive name since the birthdate cannot be changed.

<p>Destiny = 18/9 Leader/Ambitious/Humanitarian</p> <p>The Number "18/9" Destiny is a very powerful vibration, a vibration of high emotional and intellectual energy and the vibration of great leaders. This vibration requires a person to seek positive paths to express this highly, electrical drive. The "1" symbolizes independence, leadership, and drive along with the executive ability, sound judgment, and efficiency of the "8." The root number is the Number "9," a vibration of compassion, force, energy, healing, and the universal interest in all of humanity. The combined traits of the "18/9" are qualities of powerful leaders dedicated to social, political, medical, and religious changes in the world.</p>	<p>Destiny = 18/9 Leader/Ambitious/Humanitarian</p> <p>(Destiny is Identical)</p>

<p>Soul/Heart's Desire = 7 Intellectual/Educator</p> <p>The "7" is introspective, analytical, intellectual, and philosophical. The "7" is a visionary at heart, seeking the odd, the mysterious and the unusual. Self-preservation and the need to spend time alone are important to this individual thus presenting some potential difficulties in forming successful relationships. Avoid isolation and indifference, and do not become cynical towards others because of your need for privacy or spending time alone. Your challenges, as an intellectual, are to understand the meaning of "faith," and experience your emotional side, which ultimately will result in growth and satisfaction.</p> <p>This Soul/Heart's Desire is all about being analytical, intellectual and very reserved, making their outward persona to be less warm and friendly in their actions towards others.</p>	<p>Soul/Heart's Desire = 19/1 Leader/Pioneer/Compassionate Humanitarian</p> <p>The "19/1" is a combination leader/pioneer (1) and compassionate humanitarian (9). With that said, this person will always want to be in charge of their own destiny and in control of their environment, paving the road for others to follow but always being in the driver's seat. They move forward in a positive direction, rarely ever looking back but concentrating on the present and the future. As a leader/pioneer, these individuals have creative minds and original ideas which they want to implement. Being a humanitarian, their interest lies in serving mankind.</p> <p>This Soul/Heart's Desire is emotional yet nonemotional at the same time due to being compassionate in wanting to make a difference in the lives of others and powerful from the standpoint of wanting be the leader in charge of leading the way.</p>

<p>Personality = 16/7 Leader/Lover/Intellectual</p> <p>The Number “16/7” Personality is a combination of the leader, lover (caregiver) and intellectual. Their persona is aloof, selective, and gives much attention to self-preservation. The Number “7” is known for intellectual pursuits and the desire for wisdom. The “16/7” sometimes appears as an enigma that baffles understanding, and is seen as both a participant in world affairs and as someone avoiding them like the plague. The Number “1” is the expression of creative and original ideas for leadership, while the Number “6” reflects the desire to give time and energy to service, family, and the community. The Number “7” appears to withdraw into solitude out of the world, which creates a possible conflict of interest with the “1” and “6” influences. The challenge is the competition between the “1,” free individual, the “6,” service provider, and the reserved, loner aspect of the “7.”</p> <p>This Personality requires the balancing of these three characteristics, the need to be a leader who is aggressive, a cosmic parent who is domestic by nature and non-aggressive, and the intellectual who requires solitude and loner time to quiet the analytical mind and to recharge energies or there will be a conflict with this set of numbers.</p>	<p>Personality = 4 Builder; Stubborn and Opinionated</p> <p>The Number “4” Personality gives the impression of being conservative, loyal, orderly, dedicated, and self-reliant because as a builder, those are the traits of someone who is exact in everything they do. They want to be judged on the basis of their work performance rather than on appearance. So, you appear to others as disciplined, practical, and stable, one who thrives on hard work, and one who always has their nose to the grindstone. Even as a child, you demonstrated these same characteristics. You are seen as a tower of strength.</p> <p>This Personality is one that is generally stubborn and opinionated and set in their own ways. This person likes to remain inside the box as a “traditional” thinker as opposed to being outside of the box because they don’t like change nor are they generally considered “non-traditional” thinkers. Predictability is comforting because they know what to expect while change brings unpredictability and they prefer to play it safe and in control of their life.</p>

<p>Purpose = 5 Freedom/Change</p> <p>The Number “5” Purpose in life is to promote freedom and liberty for all. A person with the “5” Purpose brings forth new ideas for the purpose of expansion and progress and to pass these concepts on to others inspiring words in action. Successful careers are found in writing, speaking, communications, journalism, investigative reporting, public relations, and public administration. Since this Purpose empowers a life of action, change, and movement, you should find success working in the public arena or supporting civic improvement. Learn that change means progress, growth, and expansion, not confusion, uncertainty, or unpredictability. Too many irons in the fire will cause you to scatter your forces and avoid dealing with the reality of the circumstances.</p> <p>This Purpose is all about an individual who wants their freedom and change in their life to avoid boredom. With a curious mind and adventure at heart, they love to travel to escape routine.</p>	<p>Purpose = 5 Freedom/Change</p> <p>(Purpose is Identical)</p>

The Root Number “4” (structure, passive), which requires attention to detail, discipline, hard work, and foundation, stands between the aggressive Number “1,” which represents active individualism and leadership, and the Number “5,” which represents freedom and travel. This combination of vibrational energy may produce some restrictions, and in any kind of business venture, could represent risk and speculation. The “14/5” Life Goal is sometimes known as the number of speculation, which means that you can be a salesman or a speculator (whether it is real estate, stocks, or gambling).</p>	<p>Life Goal = 14/5 Mid Life (45-50)</p> <p>(Life Goal is Identical)</p>
<p>Challenge 1st Minor = #0 (Age 1-27)</p> <p>A “0” Challenge represents a “free” pass during this 1st Minor Challenge and a time for the individual to take charge of their life and to be in full control of what they want/don’t want during this age cycle meant for ages 18 and older. Generally the individual knows exactly what they want to experience.</p>	<p>Challenge 1st Minor = #0 (Age 1-27)</p> <p>(Challenge 1st Minor is Identical)</p>

There are many benefits for generating a blueprint on your child or children but what parent would not want to know this type of personal information about their child if they only knew it existed especially before their child entered school? Having a thorough understanding of your child’s characteristics/traits and development areas will enable you to play up your child’s strengths and help them develop in the areas they need to strengthen and grow in. We are all born with a spiritual master plan known as a blueprint but because this knowledge was not a part of our educational system, it has been the best kept secret until now.

The analysis will also provide you with the type of information you will need in order to make an educated decision on whether or not to change the name of your child. Since the child has no say so in the matter for now, if you legally change the name, only time will tell if the child likes or dislikes his/her name. If the name does not resonate with the vibrational patterns of the child, he/she will probably alter or change the name again later on or a decision will be made to go by a nickname.
